

Evidence & Health Literacy

3rd Annual Conference of the DNGK, together with the DFG Research Group HELICAP
Berlin, 05 - 06 June 2025 (Robert-Bosch-Stiftung)

The German Health Literacy Network prepares for its third annual conference on 'Evidence & Health Literacy' together with the DFG research group HELICAP and its international advisory board.

The conference will explore how generate robust evidence to assess and promote health literacy, and how evidence from research on health and disease is integrated best into interventions to promote health literacy. International and national experts will ensure an exciting start to the conference.

Get involved! Abstracts can be submitted from now until 15 February 2025.

We welcome abstracts on the following topics:

- Target group participation/involvement in evidence generation
- Evidence synthesis in health literacy research
- Professional health literacy (e.g. health and social professions, teachers)
- Development, provision and access to reliable health information
- Methods, needs and experiences of health literacy interventions
- Empirical evidence on health literacy from ethnography, epidemiology, etc.
- open topics

Please send abstracts (German or English) for scientific contributions (poster or oral presentation), workshops or symposia (up to 4 invited presentations on one topic) as an email attachment to office@dngk.de by **15 February 2025**.

Abstracts will be reviewed based on practical or scientific relevance, methodological quality, topicality and clarity. You will receive notification of acceptance/rejection by **31 March 2025**.

Cost:

Members: 55 €, non-members: 95 €, students: 50 €
